Nabaneeta Dev Sen

It was an evening of lofty thoughts and high thinking as The Bengal met at city five-star on Wednesday to discuss their activities and initiatives. The Bengal is an NGO consisting of prominent opinion-makers of the state. The chairman, industrialist HM Bangur, welcomed the team members while secretary general Sundeep Bhutoria presented the activity report. Working president Jogen Chowdhury and president Nabaneeta Dev Sen discussed the various initiatives of the organisation. Aniruddha Roy Chowdhury briefed the members about his thoughts on campaigning against the use of plastic bags. Arindam Sil and Agnimitra Paul, along with Javed Yusuf, who are the joint convenors of Pronam project — that The Bengal manages for the welfare of senior citizens, along with Kolkata police — discussed their work with the elderly at length. Usha Uthup, Nayantara Pal Chowdhury and Roopa Ganguly were also present at the meeting, among others. Sundeep Bhutoria discussed the upcoming events of the organisation. Post the meeting, there was a dinner, which was attended by select guests, apart from The Bengal members. — Srijoy Mukherjee@timesgroup.com

SEIKO KINETIC PERPETUAL AUTO RELAY

THE WATCH THAT REMEMBERS.

Can you imagine a watch that sleeps when left idle, and wakes up to the correct time?

ADVANCED WATCH TECHNOLOGY

The Seiko Kinetic Perpetual Auto Relay is a watch that, when not worn, remembers the exact time for up to four years. When put on again, the watch wakes up and automatically relays the time to the hands, restarting to the exact correct time — all in one smooth motion. Experience the best from the world leader in energy-efficient watchmaking.

RECHARGE AS YOU MOVE
With Seiko Kinetic, your body movements convert mechanical energy into electrical energy. So when you move, you give life to time.

PERPETUAL CALENDAR ACCURATE UP TO 100 YEARS
The Perpetual Calendar function ensures precise and instant date changes every day, including leap years, all the way until February 2100.

FASTER THAN A FORMULA ONE CAR
The rotor spins at 100,000 rpm, or 5 times faster than a Formula One engine to generate electricity from kinetic energy. All in all, it's magic!

Never needs a battery change. You are the power.

Seiko Kinetic Technology is available with features like Kinetic Direct Drive, Kinetic GMT, Kinetic Chronograph and as a part of the Seiko Prospex, Premier, Sportura and Velatura collections.
